NOTE FOR: Executive Director

FROM: [Redacted]
Chief, Legislation Division, OGC

John: Re the Attached Memo

I know you are interested in keeping on top of developments with respect to the Brooks Act provision in our Authorization Bill. I think we need to have our most positive components represent us in negotiations with OMB, and I tentatively plan to set up a meeting between OMB and [Redacted] of ODP or someone on his staff. Please let me know if you want to become personally involved at this stage. The OMB- [Redacted] connection has been a problem in the past, and it has not been alleviated by the last change in Administrations.
