Dear Les,

I greatly appreciate your following through so fully on the extracurricular assignment I gave you on your way out the door.

Now what I need is an NIO for Science and Technology to see that these resources are utilized. Any suggestions you could come up with would be welcome.

Ev Hineman seems to have found his deputy and this now becomes a most important recruiting task in the science and technology area.

It was nice to hear from you and I'm glad to know that all is going well.

Yours,

Bill
