MEMORANDUM FOR: Deputy Director for Intelligence
FROM: Director of Central Intelligence
SUBJECT: Epstein Article

Dick Helms called the other day to remind me that we are likely to be called upon to respond to the various allegations in the Epstein article on deception on SALT agreements which I gave you from Commentary a few weeks ago. I think we should prepare an evaluation of this article and its implications, particularly whether or not the Soviets rigged their telemetry data and our ability to detect and properly interpret that and other types of deception.
