MEMORANDUM FOR: Director of Central Intelligence

VIA : Deputy Director of Central Intelligence

FROM : SA/DCI/IA

SUBJECT : Request for Briefing on El Salvador by Under Secretary Buckley

1. In a note to you yesterday, I mentioned that Under Secretary James Buckley had made an inquiry regarding the possibility of receiving the El Salvador briefing. We all agreed that it would be ideal if he could attend the briefing of the "wise men" yesterday. He did not.

2. I received a call again today requesting a separate briefing for Buckley, who has blocked out on his calendar from 2:30 to 3:30 on 31 March. (You may already know this, but I was told by my contact in INR that there is a good chance that Buckley will become the new Counsellor at State.) I was asked also whether it would be alright for appropriately cleared INR analysts to attend the briefing. I see no reason why they should be excluded, but I suggested that Hugh Montgomery be consulted.

3. I believe we should proceed with this briefing. I do not believe it is necessary for either of you to be present, and Buckley apparently does not expect that either. Therefore, if you concur I will ask Al and Julie to brief Buckley per his request. Please let me know if you wish to handle this a different way.
