NOTE FOR: DDCI

FROM: EA/ExDir

1. [redacted] an OSO employee who formerly worked the PCP account as a member of the Executive Committee Staff, forwarded the attached proposal (Tab A) to John for consideration. He also said that he would be interested in heading the project, if it were approved.

2. The DDO believes that [redacted] provides the information Dick is targetting. The DDI, however, thinks the proposal has merit (see Tab B) and should be considered as PCP.

3. John would like to know what you would think of making this project a PCP and having [redacted] shepherd it as a part-time responsibility.

Thanks,

I believe the efforts that would otherwise warrant a PCP are presently underway - DDI is essentially correct on this one. I would not establish PCP at this time.
