Mr. Allen W. Dulles, Director
Central Intelligence Agency
Washington 25, D. C.

Dear Sir:

Thank you for the nomination of a candidate for special recognition at the Engineers, Scientists and Architects Day luncheon to be held on February 25, 1960, 12:30 p.m., at the Presidential Arms, Washington, D. C.

Final decision will soon be made by our Awards Committee as to the winners among the nominees. In the meantime, we feel that all nominees, whether or not among the winners, are deserving and should be given public recognition. We plan, therefore, to have them all attend the luncheon, sit together, be recognized by name and organization and presented with an appropriate certificate.

A table has been reserved for the nominees. Unfortunately, we do not have the funds to make these tickets complimentary so we are hoping that your organization will be able, formally or informally, to pay the \$3.00 for the ticket, and if not, that your nominee will choose to do so. Please contact Mr. J. C. Kinsey, 14000 Georgia Avenue, Silver Spring, Maryland, for tickets as soon as possible. (Telephone WHithall 27200)

SOLD out

Consultants

- GRAVATT COLEMAN
- JOSEPH L. GILMAN, JR.
- H. PEYTON HOWARD
- DR. FRANK L. CAMPBELL
- JAMES I. PORTER

We trust that you or others in your organization will also want to attend the awards luncheon at which Dr. James Van Allen, Professor of Physics, Iowa State University, will be the principal speaker. He will speak on "The Radiation Environment of the Earth." Space — the great challenge of the 1960's — will be the keynote for the entire five-hour program, which begins at 9:30 a.m. with an open discussion among four leaders in science, engineering, and architecture; moderated by Dr. Thomas J. Killian, deputy chief, and chief scientist, Office of Naval Research.

Sincerely yours,

Kenneth G. Picha
Chairman, Professional Awards Committee
1960 Engineers, Scientists and Architects Day
