Key

Reference is made to the item in the 16 May 1979 Weekly Log in which it was reported that the Federal Bureau of Investigation (FBI) had requested that an Agency employee be tasked to recontact an emigre who has originally provided him, the Agency employee, with information of counter-intelligence interest to the FBI and to this Agency. Since the emigre is a "United States person" as defined in Executive Order 12036, the Office of General Counsel (OGC) was contacted for its opinion of the legal propriety in this matter and subsequently OGC was in contact with the Department of Justice for its opinion and guidance. Within the past week, the Office of Security has been advised by the FBI that the tasking requirement no longer exists since special agents of the FBI have personally interviewed the emigre in question regarding the information he had furnished to the Agency employee. OGC was notified that legal direction in this case was no longer required and the Agency employee, who had been apprised of the possible tasking was also so informed. (S)

The Office of Security is in the process of reviewing the galley proofs of the Final Report of the House Select Committee on Assassinations. The galley proofs consist of over 3,000 pages of text and some 8,000 footnotes. The review is strictly a double check to ensure that no security considerations have been overlooked in the reviews of previous drafts of the report. This entire process must be completed and a formal response submitted to the Clerk of the House by 19 June 1979. (U)
