Employment Ceilings

1. The revised Fiscal Year 1967 position ceilings for the Independent Offices of the DCI Area are as follows:

[Redacted Component]

25X1A

2. Changes may be made in accordance with [Redacted]

25X1A

Office heads should revise their staffing complements to agree with the position ceilings stated above. It is recognized that, in some cases, current manpower imbalances will require the remainder of the fiscal year to correct. A firm objective, however, is that the year-end, on-duty strength should not exceed the position ceilings established in this memorandum.
