Honorable Robert Murphy  
Deputy Under Secretary of State  
Department of State  
Washington 25, D. C.

My dear Mr. Murphy:

Your letter of February 6, 1956, together with the staff paper concerning reciprocal radio agreements, has been reviewed. It has been noted that the staff paper, with the exception of its recommendation and conclusions, is the same paper which was reviewed by the Interdepartmental Intelligence Conference (IIC) during its consideration of this proposal in September and October 1955.

The proposed change does add an additional burden from the standpoint of internal security, but, if it is considered desirable as an over-all policy, naturally we will be guided by the decision at a higher policy level.

Sincerely yours,

/s/ J. EDGAR HOOVER
