p. 72-82

DESCRIPTORS: \*Anthropology, \*Polynesia, Culture,  
Translations

The aim of this article is to prove that there were not  
two different peoples on Easter Island. The division  
into short-ears and long-ears is a division between  
two groups of the same people. The evidence in favor  
of this statement is from a small "kohau rongo-rongo"  
text deciphered by the author. This text is inscribed  
on the small Chile table and represents a genealogy  
consisting of six names. (Author)

Trans. of Akademiya Nauk SSSR. Institut Etnografii. Trudy [1960] v. 54.

DESCRIPTORS: \*Labor, \*Economics, \*Food, Man, Culture, Anthropological data, Australia, Pacific Islands.

We have characterized the various elements of division of labor in the Australian, Papuan-Melanesian and Polynesian tribes. We have shown in what manner the division of labor determines the various aspects of the social life of these peoples. The division of labor among the Australian tribes brought about their (Social Sciences, TT, v. 8, no. 5) (over)
