Kasowski, J., Muchawock, J., and Prinz, K.
HONEYCOMB GRIDS FOR KLYSTRONS (Wahlengraben
für Klystrons). [1963] [22]p. (Illustrations included).
Order from SLA \$2.60 63-18083

Trans. of Frequenz (West Germany) 1962, v. 16,
no. 3, p. 69-76.

DESCRIPTORS: "Reflex klystrons, "Electron tube parts,
Honeycomb cores, Copper, Life expectancy.

The development of a reflex klystron for wideband
transmission at frequencies around 11 Gc led to the
problem how to make grids capable of carrying particu-
larly high loads. Honeycomb grids of copper quality
particularly well for this purpose because of their high
optical transparency. A manufacturing method is de-
scribed which avoids the irregularities appearing in the
boundary zones of the honeycomb grids known so far.
