[337p.].

DESCRIPTORS: \*Crustacea, Aquatic animals, Marine  
biology, Shellfish, \*Classification

This volume deals with one of the large taxonomic  
divisions of the Decapoda, viz., the Anomura, the  
hermit crabs. In the introduction, a short anatomo-  
morphological outline and also very succinct data are  
given on the biology and zoogeography of the Anomura.  
Owing to its specific character, the data on the family  
Paguridae are preceded by a special introduction, in  
which its anatomy is examined in greater detail, while  
in the general introduction, the external morphology and  
(Biological Sciences--Zoology, TT, v. 8, no. 8) (over)
