Nikonova, E. A. and Myagkov, V. A.
EFFECT OF THE CONDITIONS OF PREPARATION
OF VISCOSE ON ITS TRANSPARENCY. [1963] [13]p.
7 refs.

Order from OTS or SLA \$1.60 63-18294

Trans. of Khim[icheskie] Volokna (USSR) 1961,
no. 3, p. 27-31.

DESCRIPTORS: *Viscose, Iron, Sulfides, Cellulose,
Surface-active substances, Amines,

The presence of dispersed air in viscose decreases its
transparency. Dissolved air does not influence viscose
transparency. A decrease in viscose transparency in
the process of ripening is due to the presence of Fe in
it which is gradually converted into sulfide. The
presence of Ca also decreases the transparency, es-
pecially when it is introduced into the dissolving pulp.
