DESCRIPTORS: \*Machine tools, Machine tool industry,  
Industrial production, Automation.

The book deals with the present [1959] state of Soviet  
machine-tool construction and the prospects of its de-  
velopment in the seven-year period (1959-1965).  
Particular attention is paid to problems of machine-  
tool automation as well as of automation of complete  
production cycles. It contains tables and figures,  
numerous illustrations of recent types of machine tools  
(Machinery, Fabrications and Accessory Equipment,  
TT, v. 10, no. 9)
