Comparative Assessment of Immunological Efficiency of  
 AIDC Vaccines With Various Quantitative Contents of  
 Antigenic Components, by L. E. Shadrin et al.

Journal of Virology, 1977, Vol. 25, No. 2, pp. 400-407.

Abstract: The immunological efficiency of AIDC vaccines with various quantitative contents of antigenic components was compared in mice. It was shown that the immunological efficiency of AIDC vaccines with a high content of antigenic components is higher than that of vaccines with a low content of antigenic components. The immunological efficiency of AIDC vaccines with a high content of antigenic components is also higher than that of vaccines with a low content of antigenic components in the presence of an adjuvant.
