HOW DO YOU KNOW WHETHER YOUR COMMUNI-

Order from SLA mi\$1.80, ph\$1.80 60-18657

Trans. of Travail et Methodes (France) 1958, Jan,
p. 173-174.

The following suggestions are offered for improving
communications. Learn everything possible about the
interests, aspirations, and dislikes of the persons you
seek to reach. Learn what those persons think and
know about you. Then check to see if you have said the
necessary things, to the necessary people, in the
necessary manner. Periodically compare your results
with those of others. Continually seek to adjust your
efforts according to your results. Develop some way
of checking each year to see whether your communi-
cations have reached their goals.
