under your jurisdiction of the President's special appeal and urge them to encourage their personnel to contribute as generously as they can to these agencies. Emphasize the fact that the Agency endorses the good purposes of these national and international organizations and also the fund-raising efforts of the Red Cross and the local United Funds or the Community Chests, but we want participation always to be entirely voluntary. I believe our employees will want to give their full citizen's share to these worthy organizations which carry on for us the great American tradition of voluntary help for ourselves and our fellow man.
