MEMORANDUM FOR: Assistant Deputy Director for Support

SUBJECT : Emergency Power for Agency Headquarters Facilities

REFERENCE : Memo dtd 26 April 66 to D/L fr ADD/S, same subject

1. This memorandum is for your information only and is a periodic progress report as requested by reference.

2. The scheme for the proposed operation of the 2 - 2000 KW emergency generators in parallel with the commercial power sources has been reviewed by VEPCO Engineers. A meeting is scheduled for 7 September 1966, between VEPCO, General Electric, and CIA Engineers to formalize the control scheme. General Electric will then proceed to install the necessary relays and equipment.

3. The Engineering Staff, Office of Communications, is still reviewing our preliminary feasibility study for modifications to the uninterrupted power supply at the Headquarters Building. Commo Engineers have indicated that the power and air conditioning requirements for the installation of the computerized system at the Signal Center have not been firmed up.
