MEMORANDUM FOR: Director of Logistics

SUBJECT : Emergency Power for Agency Headquarters Facilities

On 24 March you reported the results of tests on the emergency power supply at the Headquarters Building. The report indicated a number of problem areas and cited action being taken. The seriousness of a power failure accompanied by the deficiencies noted in our emergency power system cannot be overstated. It is therefore requested that you keep me advised at not to exceed intervals of two weeks on progress in this connection.

Mr Warfield W

Based upon this report we are quite far from a satisfactory emergency system. Would you please follow this to assure that we are taking corrective action.

Two problems have been with us for some time

- A. The phasing of the big diesel generators
- B. The Uninterrupted Power Systems

Is there some new offroad industry certainly has had the proper equipment that must be an answer
