MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Commendations

1. On 25 January 1965 the DDI established a "CIA Operations Center" as a staff element of the Intelligence Directorate and physical planning for the Center was ordered expedited.

2. From this date, through the actual start of construction in early May to the completion of all major items in mid-September, many personnel in the Support Directorate were more or less continuously and intimately associated with the project.

3. It would take several pages to commend all of the people in your offices and shops who contributed to the early and highly satisfactory completion of the Center. However, I would like to single out the following employees and through them extend to their subordinates my appreciation for a job well done.
