MEMORANDUM FOR: Mr.

*Answered.
V. S.*

SUBJECT : Additional Supergrade Positions for the Office of the Deputy Director for Science and Technology

In reference to the attached memorandum dated 30 November 1966, I have a question concerning Paragraph 3, namely, the evaluation of the Security Officer position. While there has been some reduction in OSA activities, there has been a considerable increase in OSP activities involving large-scale projects which pose a multiplicity of security problems in operations and contractual activities. Perhaps the original write up of the proposed position does not encompass go-ahead decisions arrived at in recent months. I would simply like to be assured that the evaluation was conducted on the current situation involving current and developing responsibilities.
