MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : Kaiser Aluminum Booklet on Communication

1. This memorandum is for your information only.
2. On 17 May 1966, you asked whether or not this booklet should be required reading for the interdepartmental groups and seminars that we sponsor. The Office of Training has reviewed the booklet and considers it to be a clear and well-presented summary of findings that have been incorporated in numerous works on human relations, semantics, and communications in general. The booklet will be useful in our Career Training, Writing Workshop, and Management Courses. It will be available to interdepartmental groups; however, we recommend against presenting it as required reading.
3. One hundred copies are being obtained for the uses mentioned above.
