17 JAN 1966

MEMORANDUM FOR: [redacted]

25X1

Colonel White approved the proposed [redacted] on Requests for CIA Speakers and he approved the continuance of the program [redacted] for the current academic year. However, he stated that he would like to be in on the review of [redacted] program to determine whether it would be continued following this academic year. He wonders what CIA is getting out of this participation and wonders whether it is a good or bad precedent.

I have prepared a note for Mr. Bannerman to the Director of Training asking for a report and recommendations on the [redacted] program by 1 March 1966. [redacted] agrees to that date. The paper which Colonel White approved and Mr. Bannerman's memo of 12 January 1966 state that several other things were being done. We said that [redacted] is preparing texts and outlines of ~~speakers~~ before non-Government groups which will be coordinated and approved in advance. It also stated that DDS is looking into presentations by recruiters and members of the Hundred Universities Program to see if action is needed in these areas. Finally, it stated that existing commitments for presentations outside the intelligence community will be reviewed and submitted for current decision on their continuance.

25X1

I believe that [redacted] is taking action on all these jobs except the presentations by recruiters and the Hundred Universities Program. Will you please follow up on all of the necessary actions?
