

SOCIETY FOR ADVANCEMENT OF MANAGEMENT
WASHINGTON CHAPTER

P. O. Box #1748 - Washington, D. C. 20013

June 3, 1966

Vice Admiral William F. Raborn, Jr.
Director, Central Intelligence Agency
Washington, D. C. 20505

Dear Admiral Raborn:

Our Washington Chapter SAM announces the 7th Advanced Management Course to be presented from October to May of the oncoming 1966-67 Chapter Year. The instructor will again be Dr. Raymond Pelissier, who has very capably conducted the 5th and 6th courses.

The Advanced Management Course is an unique, proven development program for your middle and upper level managers, generally at the GS-14, 15 and 16 levels. A list of firms that have enrolled managers in past courses is enclosed, along with names of recent graduates who may be called for their personal evaluation. Over 100 registrants have participated in the six courses presented to date.

This course is an effective management growth experience with the built in advantages of not requiring a participant to be absent from his job or requiring substantial per diem and travel expense. The U. S. Navy Bureau of Ships and the Chesapeake and Potomac Telephone Company have regarded the AMC as a standard management skills program for several years.

We are forwarding announcement and registration material to copies of which are also enclosed for your information.

If you have further questions, please feel free to call Mr. Max A. Butterfield at 154-7442 (IDS) or Dr. Raymond Pelissier at 522-8232. We look forward to having one or more representatives from your organization with us in this important development program.

Sincerely,

C. Scott
C. Scott,
President
