DD/S STAFF MEETING

9 June 1970

25X1

2. Ervin Bill, S. 782:

Passed Senate by voice vote, now in the House Civil Service and Post Office Committee. The FBI has total exemption from its provisions; NSA and CIA have limited exemption. It looks pretty certain that the Bill will pass. Mr. Bannerman has met with OP and other offices to discuss the provisions of the Bill, SOP's to follow in the Agency should it become law. The Agency will designate a focal point officer. Under the provisions, an Agency has 120 days in-house to complete its work on a case. It is important not to take this Bill lightly--e.g., under its provisions, individual supervisors are subject to charge.

To bring a case, an employee need only think he has a case; it must then be processed. If an effective date is not set (should it become law), then anything that has transpired in one's employment history can be raised as a case.

3. Inter-Directorate Rotation Program

Mr. Wattles submitted a memo dated 4 June to the Executive Director-Comptroller on the status on Inter-Directorate Rotation. Rotations among DDI, DD/P and DD/S&T are in process of arrangement. It turns out, however, that other Directorates would use the DD/S candidates in normal Support-type jobs. Further, the DD/S has routinely been rotating for years--e.g., we now have 25X9 careerists in DD/S&T alone, quite a few of them in S&T positions.

Mr. Wattles will look up figures on DD/S careerists in the other Directorates.
