THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

7 May 1982

NOTE FOR: Director of Central Intelligence

SUBJECT : Central America--An Intelligence Overview

A draft of the briefing you requested during our discussion today is attached. This makes the case, concurred in by all our associates, that Cuba/Nicaragua will use the apparent cause to rebuild and strengthen the extreme left in El Salvador and Guatemala.

Section IV uses the intelligence approach of "vulnerabilities" to summarize possible actions.

I look forward to our discussion 10:00 a.m. on Monday.
