

2 June 1982

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: 

25X1

SUBJECT: Agenda for Breakfast Meeting with Secretary and  
Deputy Secretary of Defense, 4 June 1982

1. The formal agenda for your breakfast meeting on Friday with Weinberger and Carlucci is fairly slim. The following agenda items have been proposed:

-- Congressional interest in Continuity of Government. Mr. Carlucci would like to discuss with you efforts to coordinate on Congressional interest in the Continuity of Government problem. According to  there has been an increase in Congressional interest which has been discussed by the Steering Group.  will provide some talking points on this issue. ✓

25X1  
ZSAI

-- Land Armaments and Manpower Model (LAMM).  recommends that you pass to Weinberger and Carlucci our appreciation for this successful joint venture. The data base produced is apparently being widely used by DoD. SOVA would like to promote more of this type of joint effort. ✓

25X1

-- Falklands Crisis. This is of continuing interest, of course, and you will have the latest talking points with your PDB materials Friday morning. ✓

2. A couple of other issues might arise depending on what transpires tomorrow:

-- Oil Field Vulnerabilities Studies. Fred Ikle may propose additional procurement of critical petroleum equipment. This proposal would be based in part on the joint CIA/DoD assessments of Persian Gulf oil vulnerabilities. In light of the Gulf concern over Iran's future intentions, Weinberger and Carlucci may wish to discuss this issue with you.  has provided a background memorandum should such a discussion come up. ✓

25X1

-- The President's Report. We have not yet received a formal written response from Judge Clark's office to your recent memorandum on the President's report.  said that in response to his call yesterday, it appears that Clark's office will produce a written response. I believe it would be most useful if the DCI and Secretary of Defense could decide at least for the duration of this Administration ✓

how they wish to handle this project. We shouldn't have to go through this hassle every time the project comes up for publication.

3. Please let me know if you wish to add to or change the above proposed agenda. I am confident that you have topics you wish to discuss which would not necessarily be proposed by the two bureaucracies
