Chief, Headquarters Engineering
Branch, RECD/OL

SUBJECT: Headquarters Power Outage

1. In order to perform necessary electrical work within the Headquarters Building, it will be necessary to subject the northeast quadrant of the building to a partial power outage. The service and area affected will be the 120/208 volt receptacles in the E, F, and H corridors. The outage is scheduled from 1800 hours on Friday, 17 July until 2300 hours on Sunday, 19 July 1981. During this outage, no receptacle power will be available, but lighting and elevators will not be affected.

2. Coincident to that outage, other work will require a short-time, partial power outage in both the northeast and northwest quadrants affecting the E, F, G, H, J, and K corridors. This outage is scheduled from 1400 hours to 1700 hours on 18 July, when approximately half the lights, outlets, and elevators in the affected areas will be out of service.

3. It is requested that personnel within your component who plan to work in the building during this outage be notified and encouraged to rearrange their schedules, if possible.
