Attached is a letter I propose be sent to Secretary Duncan.

Our negotiations with DOE thus far, relative to the priority status of this Agency under the DOE gasoline allocation regulations, have not been very productive.

While the Agency is not now experiencing problems in obtaining gasoline, our discussions with DOE, however, have brought into sharp focus a dilemma which is created by DOE regulations which were promulgated without regard for this Agency's responsibilities in the area of national security. I suggest it is time for the Agency to take a firm position on this issue.
