MEMORANDUM FOR: Chief, Regulations Control Division, ISS
FROM:  25X1A
Office of General Counsel
SUBJECT: Proposed Employee Bulletin on Van Pooling

1. This memorandum is in response to your request for comment from this Office on a proposed employee bulletin on the subject of van pooling. Although this Office has no objection to the publication of a bulletin of this sort, we believe that the draft presented for our review fails to address certain key points: first, until there is a major reversal of Government policy on home-to-work transportation the Agency cannot offer substantial aid to a van pooling program in terms of funding and management support; and second, significant problems have yet to be resolved in the areas of cover, and state and federal regulation and taxation.

2. Given these concerns it may be advisable to recast the bulletin as a survey of interest issued prior to commencing significant effort on the project. In that regard, I have attached a copy of a draft for consideration by the Office of Logistics.
