

The Director of Central Intelligence

Washington, D.C. 20505

Honorable Orrin G. Hatch, Chairman
Committee on Labor and Human Resources
United States Senate
Washington, D.C. 20510

Dear Mr. Chairman:

I am writing in support of H.R. 756, which recently passed the House by a vote of 327-82 and is now pending before your Committee. The officers of the Federal Protective Service have done an outstanding job in protecting the personnel and property of the Intelligence Community in the buildings which the Community occupies. These officers receive the same training, have the same types of duties and responsibilities, and run the same occupational risks as do federal law enforcement officers such as the Uniformed Division of the Secret Service and the Capitol Police. Representative Dale E. Kildee of Michigan introduced this Bill in order to raise the pay and benefits of Federal Protective Officers to equal those of similarly situated federal law enforcement officers.

I believe that H.R. 756 accords Federal Protective Officers a status befitting their service to the country, and I support the concepts embodied in the Bill.

The members of the Intelligence Community greatly appreciate the fine work that the General Services Administration's Federal Protective Officers have done for us.

Sincerely,

John N. McMahon
Acting Director

OEXA 82-2022

MEMORANDUM FOR: Acting Director of Central Intelligence

FROM:

Director, Office of External Affairs

25X1

SUBJECT: Draft Letter to Senator Orrin Hatch re H.R. 756

1. Following the death of FPO Wells here on the compound on 23 June when the President visited CIA to sign the Intelligence Identities Protection Act, two members of my staff were approached by FPOs here to solicit support for H.R. 756, a Bill pending in Congress which will provide death benefits for them similar to those provided other uniformed officers who serve in positions of occupational risk. Although FPO Wells would not have been covered under the provisions of this Bill, it still seems appropriate that CIA demonstrate a show of support for the FPOs assigned to us.

2. This Bill was introduced and passed during the 96th Congress but was later vetoed by President Carter. At that time former DCI Turner sent a letter of support for the Bill to the head of the General Services Administration. The current Administration, however, is opposed to the Bill.

3. The attached letter has been drafted to Senator Hatch; his Committee now has H.R. 756 under consideration. Your letter will of course have to be funneled through the Office of Management and Budget and could well never be sent to the Committee. Once OMB has taken action on it, if approved, it will be sent back for your signature and subsequent forwarding to the Committee.

4. Please indicate your approval or disapproval of this action below.
