

OCS - FISCAL

DDS&T 4169-66, 12 Aug 1966

Memo for DDS&T Attn: Comptroller, sub: Cost Red. Programs,  
FY 67 and FY 68, S.

"The goals for OCS savings in terms of increased ADP productivity and efficiency to be realized through the full conversion of present hardware at third generation equipment are to be achieved from FY 68 onward. Therefore, during the critical period of conversion OCS will ~~not~~ require an increase in dollars and manpower; however, a dramatic cost reduction per-unit-of-work processed on OCS computers is expected in the years to follow. Subsequent Agency ADP savings that are achieved in the interim will continue to accrue in the customer offices which are served by OCS."

Charles A. Briggs  
Director of Computer Services
