STAT

1. I have reviewed the Office of Data Processing Strategic Plan FY 1984-1993 and commend your goals "to provide all agency employees access to secure and cost-effective ADP and office automation services" and to continue as a "leader in the introduction of new information systems technology."

2. I agree with your assessment of key trends. We certainly do see a continuing growth of information needs in a changing environment. I am, of course, interested in your objective to expedite systems development and I wish you early success with that one.
