SUBJECT: Economic Intelligence for U.S. Businesses

REFERENCE: DDA 83-0010/3, dated 07 January 1983

As we thoroughly and loudly discussed at the referenced staff meeting, the very nature of our federal system of government prevents intelligence organizations from dealing directly with U.S. private firms. There is no harm or contradictions of the checks and balances of our society in our providing economic information to other government organizations. To attempt to serve the needs of individual U.S. businesses would subvert and prostitute the purposes for which we were established -- to prevent another Pearl Harbor.
