STAT

In response to the referenced review, the Office of Logistics (OL) would be pleased to assign a fourth contracting officer to the DDI beginning in FY 1984, provided the DDI provides a position. Further, OL currently sponsors two general training courses for COTRs. They are offered on a regular basis through the Office of Training and Education. Should the DDI implement a specialized training program for COTRs, we request the course content be coordinated through our Procurement Management Staff. We are, of course, willing to provide our support to the DDI with respect to its training course if they believe having their own course is essential.
