MEMORANDUM FOR: Director, Foreign Broadcast Information Service
THROUGH : Chief, Operations Group
SUBJECT : Key West Bureau -- Monthly Report -- May 1982

I. GENERAL

A) The Navy has begun holding planning meetings for tenants in preparation for the 1982 hurricane season which begins on 1 June. The bureau, of course, participates in this preparation and uses Naval evacuation facilities when necessary.

B) Operation Ocean Venture '82 ended on 15 May and the bureau was relieved of the ad hoc services it had been providing during the period of the military maneuvers. (See April Report for description of these services.)

C) It appears the bureau may have won its effort to forestall the construction of a road through a portion of its antenna field. Although it has been impossible to get a final statement from Naval personnel as yet, it has been learned that Admiral McKenzie--for whom the road extension was to be built--is retiring during the month of June. Thus the pressure for completion of this project may be gone.

II. OPERATIONS

A. Monitorial/Editorial

The major ongoing problem continues to be the lack of a sufficient number of staff personnel. Scheduling has to be very creative at times in order to provide for the transportation and security problems presented by the present arrangement.

B. Lateral Services

1) After significant review and pruning of services it was possible to resume service to COMUSFORCARIB by the end of May.

2) Ad hoc lateral services in support of Operation Ocean Venture '82 ended midmonth and both the PSYOPS Group and the local J-2 were effusive in their praise and appreciation for the cooperation extended to them during the maneuvers.

C. Technical

Nonexpendable property received from headquarters during the month of May includes: 1 Hewlett-Packard Model 8601A Generator/Sweeper; and 1 Matrix Systems Corporation Model 7108-DR-5V coaxial antenna switch.
