6 November 1983 MJN 8326

MEMORANDUM FOR: Director, Foreign Broadcast Information Service

THROUGH: Chief, Operations Group

SUBJECT: Monthly Report--Jordan Bureau--October 1983

I. OPERATIONS

Monitorial/Editorial

- 1. The starting time of one monitoring shift has been advanced one hour, from 1500 to 1400, to provide greater continuity between the day and evening shifts. The new arrangement has proved particularly useful for improving processing of the important and productive 1215 GMT news and commentary program on Damascus Domestic Service.
- 2. To relieve some of the burden on Nicosia Bureau in the wake of the bombings of the U.S. Marine and French military headquarters buildings in Beirut, the Bureau assumed coverage of Cairo Domestic Service and Cairo MENA in Arabic and English from 1500 till signoff on 23 October.

II. ADMINISTRATION

A. Personnel

Three monitors	were promoted effective 2 October. Trainee	
	was promoted to monitor, FSN-8, following	STAT
the successful compl	letion of a one-year training program.	
Monitors		STAT
as acting shift supe	ervisors, were promoted to senior monitor,	
FSN-10.		

B. Building and Grounds

1. A closed-circuit television system to monitor the foyer of the Bureau was installed during the month, along with an upgraded intercom system. The new system enhances Bureau security by allowing staff personnel to see who is outside before opening the inner security door leading from the foyer into the Bureau after the part-time secretary has departed or when she is away from her desk. An earlier attempt to install a viewer in the armored-core door was unsuccessful. The intercom

MJN 8326 Page Two

system allows questioning of unfamiliar visitors, many of whom turn out to be looking for other Embassy offices in the first place. With TV monitors and door control switches at the editorial desk and in the chief's office, the new system also considerably reduces the disruption of someone having to answer the doorbell in person.

2. The Mylar film on all Bureau windows has been replaced with stronger 3M Y-2733 (4-mil.) shatter resistant film. The work was done as part of an Embassy-funded security enhancement project.

III. VISITS

1. Political Officer, American Embassy Damascon 2 October for a briefing on Bureau operations and discussions on FBIS service to Damascus.	TATŞ _{aı}
2. London Bureau chief editor, 6-13 October for discussions on coverage coordination, communications procedures, and Jordan Bureau's contributions to the MWR.	STAT
	STAT
Chief Jordan Bureau
