

MNC-5127
5 November 1985**MEMORANDUM FOR:** Director, Foreign Broadcast Information Service**THROUGH:** Chief, Operations Group**SUBJECT:** Monthly Report -- Nicosia Bureau -- October**I. GENERAL**

A. Construction of the new bureau began early in the month. Excavation work on the building's foundations has been completed and at month's end work was progressing on pouring the foundations and structural columns. Excavation of the foundations for the security wall around the site were to begin in early November. On the paperfront, the bureau's project team spent most of the month correcting oversights and inconsistencies in the drawings and specifications. The five major subcontracts covering mechanical, electrical, security, and standby generator systems, as well as interference-free lighting fixtures, were awarded after a thorough analysis of the bids.

II. OPERATIONS**A. Monitorial/Editorial**

1. In light of AFP reports citing the 7 October seizure of the Italian cruiseship "Achille Lauro" by Palestinian commandos off the coast of Egypt and their threat to kill the U.S. passengers aboard if their demands were not broadcast over Egyptian radio and television, the bureau implemented a crisis scheduling plan to ensure 24-hour coverage of monitorable Cairo media. At the Wire's request, the bureau's sole Hebrew monitor was called in to cover Tel Aviv IDF radio and Jerusalem Domestic Service during Tel Aviv Bureau's hours of closure on the night of 7-8 October. Upon receipt of an 8 October Paris Radio Monte Carlo report that the vessel was sailing in the direction of Cyprus, the bureau also placed Nicosia radio on open watch until the transmitter signed off. Through these coverage efforts, the bureau was able to keep local embassy officers and headquarters components thoroughly apprised of breaking developments in the hijacking via media behavior FYI's and wirefiled items.

On 9 October, with monitored Egyptian radios confirming the hijackers' surrender to Egyptian authorities in Port Said, the bureau stood down from its 24-hour watch. We continued to file liberally in the aftermath of the hijacking, however, focusing on Egyptian media reports and comment on the interception of the aircraft carrying the Palestinian hijackers by U.S. warplanes and the subsequent demonstration staged in Cairo in protest of this action.

2. In response to ongoing Wire interest in the fate of the U.S. citizens who continue to be held captive in Lebanon, the bureau made a special effort to rapidly obtain copies of the 4 and 12 October issues of the Beirut newspaper AL-NAHAR, which published statements by the Islamic Jihad organization on the "execution" of American hostage William Buckley. Per Wire request, the 12 October edition, which contained a photograph alleged to be of Mr. Buckley's body, was pouched to headquarters.

3. The clandestine Radio Free Lebanon (RFL), affiliated with the Christian Lebanese Forces, has been unheard at Nicosia Bureau on its mediumwave frequency since 3 October. On 5 October, the Beirut Voice of Lebanon, a station originally associated with the Phalangist Party but taken over by the Lebanese Forces in September, broadcast a statement from the Lebanese Forces Executive Committee's Information Department indicating that RFL had ceased mediumwave transmission "for several days" for maintenance but that its FM transmissions would continue. We have been unable to confirm the continuation of FM transmission because of seasonal propagation conditions. Our Arabic and cruising monitors suspect that RFL's cessation of broadcasting is linked to the September takeover of the radio, in that the Lebanese Forces do not require two stations.

4. The 2 October edition of Beirut AL-NAHAR published a report that the "Syriac League in Lebanon" has inaugurated its own radio station, known as the Voice of the Syriacs, which is not to be politically oriented, according to League Chairman Habib Afram. The new radio has not been heard in Nicosia to date.

5. A station identifying itself as "Radio Delta" and indicating that it is directed at "Beirut, north Lebanon, the mountain and Cyprus" is being heard at Nicosia 0550-2100 GMT daily. Its programming consists entirely of entertainment and advertisements in Arabic.

6. The bureau has assumed coverage of a new Turkish newspaper, Istanbul HURGUN in Turkish, which purports to pursue "respect for democracy" in its reportage and comment. Its editorials to date suggest that it will serve as an opposition paper.

B. Technical

1. Work continued on cleanup and final antenna tuning at the Lara remote site. The antenna configuration there includes three long wires, a sloping long wire, a monopole, a Ras-10 dipole, a 30x15-foot loop for HF coverage, and two rotatable antennas (one FM and one Band III) for VHF coverage. We also have use of two antennas owned by CYTA, one an HF Hermes loop and the other a tower-mounted FM antenna. Thus, we now have four more antennas than were available at our previous site, in a configuration that provides significant improvement in our reception, particularly of Greek transmitters.

2. One Sharp VHS multistandard videocassette recorder, Model VC-5M6E, was purchased for the bureau.

III. ADMINISTRATION

A. Personnel

1. Regional Engineer [redacted] spent 8-14 October TDY at Gulf STAT Bureau to repair and supply training on the bureau's emergency generator.
2. Deputy Chief [redacted] returned to duty 29 October following stateside R&R.
