TITLE: Radiator from a current ring in a waveguide

DATE: 1964

TOPIC TAGS: Cerenkov radiation, dielectric waveguide, plasmod radiation

ABSTRACT: The authors consider the Cerenkov radiation produced by an annular current moving along the axis of a coaxial waveguide whose dielectric properties change abruptly at a certain radius.

25  
ABSTRACT: The authors consider the Cherenkov radiation produced by an annular current moving along the axis of a coaxial waveguide whose dielectric properties change abruptly at a certain radius. In the considered coaxial waveguide, the dielectric consists of two coaxial hollow cylinders having different dielectric constants. Formulas are derived for the radiation power by taking advantage of the fact that only the azimuthal component of the vector potential differs from zero. The results show that the power decreases exponentially when the thickness of the inner dielectric cylinder tends to zero. Normally the current-carrying ring emits only H waves, but if the charge of the ring differs from zero, the system will also radiate E waves. The effect of this charge on the calculations

Title : Two stage hot air combustion of pulverized coal

Periodical : Elek. sta., <sup>26</sup> 9, 5-8, S 1955

Abstract : The authors discuss in detail certain changes made on boilers of the FK-9-200/35 type, which use hard coal and are installed at one of the thermal power plants. The article describes the results of 4 years work in designing, testing and improving of the boiler design. Further research and tests are recommended. Three diagrams.

Inst : Institute of Veterinary Medicine

Title : On the Venous and Arterial Pressure in Certain Noninfectious Diseases of Farm Animals

Orig Pub : Nauchn. tr. Vissh. veterinarnomed. in-t, 1956, 4, 251-261

Abstract : Of 450 animals affected by various noninfectious diseases, changes of venous and arterial pressure were observed in 125 of them. The measurement of the arterial pressure was effected by an oscillograph and that of venous pressure by a water pressure gauge. In the initial stage of the development of colics (acute dilatation of the stomach, obstruction of the rectum, meteorism), the arterial pressure increased and the venous pressure remained unchanged. In the looping of the colon, the venous pressure decreased sharply, and arterial pressure remained unchanged. In peritonitis and gangrenous pneumonia of horses, the arterial pressure increased and the

Title : Listerellosis of Sheep and Goats in Bulgaria.

Orig Pub : Nauchni tr. M-vo zemed. i gorite. Ser. zhivotnovodstvo i vet. delo, 1957, 2, No 2, 35-40

Abstract : In Bulgaria, listerellosis of sheep and goats was found to be present in 51 settlements. The disease manifests itself most frequently in the form of abortions or enteritis with septicemia, or else acquires the form of meningo-encephalitis. The latter 2 forms of listerellosis produce a high mortality rate among the animals. As bacteriologic investigations were carried out, the serologic type of *Listeria monocytogenes* I was isolated. Histologic examinations uncovered infiltration of pus into parenchymatous organs of lambs (miscarried fetuses), and also into the brain of sheep which

TITLE: V. G. Sosyants

PERIODICAL: Elektrichestvo, 1959, Nr 5, p 92 (USSR)

ABSTRACT: A short curriculum vitae on the occasion of his 70th birthday. Born on November 27, 1888 in Tiflia. Entered the Moskovskiy tramvay (Moscow Streetcar Service) in 1908, studied at the same time and finished his studies at the Polytechnic Institute in 1916. He worked in the Moscow Streetcar Service until 1930 where he finally became chief engineer. From 1931-37 he worked in the system of the Narodnyy komissariat kommunal'nogo khozyaystva RSFSR (People's Commissariat for Municipal Economy of the RSFSR) and in the Vsesoyuznyy sovet kommunal'nogo khozyaystva pri TsIK SSSR (All-Union Sovet of the Municipal Economy at the TsIK of the USSR). From 1937 he has been conducting the Sector of Municipal Transport at the Akademiya kommunal'nogo khozyaystva im. Pamfilova (Academy of Municipal Economy imeni Pamfilov). Besides, he is working as a pedagogue.

Card 1/3

V. G. Sosyants

He started his activity as a pedagogue in 1929 at the Institut narodnogo khozyaystva im. Plekhanova (Institute of Political Economy imeni Plekhanov) where he organized and gave lectures on municipal electric transportation. Later on he also worked at the Moskovskiy energeticheskii institut (Moscow Power Engineering Institute) and other institutes. He published a number of scientific papers, text books, and manuals. In 1923 he organized the 1st All-Russian Streetcar Conference. He was a member of the Presidium of the Postoyannoye byuro vsesoyuznykh tramvaynykh s"yezdov (Permanent Office of the All-Union Streetcar Congresses), of the Vsesoyuznoye nauchnoye inzhenerno-tekhnicheskoye obshchestvo gorodskogo transporta (All-Union Scientific Technical Society of Municipal Transportation). Since 1954 he has been Deputy President of the Central Executive Committee of the Nauchno-tekhnicheskoye obshchestvo sanitarnoy tekhniki i gorodskogo khozyaystva (Scientific-technical Society of Sanitary Engineering and Municipal Economy). At the same time, he is Deputy President of the Section of Transportation of the Moskovskoye gorodskoye otdeleniye Vsesoyuznogo obshchestva po rasprostraneniyu politicheskikh i nauchnykh znaniy (Moscow Municipal Department of the All-Union Society for the Propagation of Political and Scientific Education), as well as a member of the Commission for the Reorganization of Municipal Trans-

TITLE:

Professor I. S. Yefremov, On His 50th Birthday

PERIODICAL:

Elektrichestvo, 1959, Nr 12, p 83 (USSR)

ABSTRACT:

Ivan Semenovich Yefremov was born in July 1909. In 1935 he graduated from the fakul'tet elektrifikatsii (Department of Electrification) of the Moskovskiy elektromekhanicheskii institut inzhenerov zheleznodorozhnogo transporta (Moscow Electromechanical Institute for Railroad Engineers). He is working since then at the Trolley Administration of Moscow, where he became plant manager, after being foreman and chief engineer. He takes part in the scientific work of the research laboratory of the gorodskoy elektricheskoy transport Akademii kommunal'nogo khozyaystva (Municipal Electrical Transportation of the Academy of Communal Economy). In 1946 he graduated as Candidate of Technical Sciences, in 1949 he was elected the chief of the kafedra elektricheskoy tyagi i podvizhnogo sostava Moskovskogo avtodorozhnogo instituta (Chair of Electrical Traction and Vehicles of the Moscow Institute of Highways).
