

SECRET

23 August 1948

MEMORANDUM FOR: Allen W. Dulles
William H. Jackson
Mathias F. Correa

1. Enclosed is the paper referred to in paragraph 2(d) of my memorandum of 17 August, which attempts to summarize informally some of the principal issues which the Survey Group will have to consider in its conclusions. This is not in any sense a draft submitted for approval, but rather a series of notes which may help us to define the principal questions we want to answer and suggest some of the issues involved in seeking the answers.

2. I hope that at our meeting on Wednesday evening we will be able to make a good start in identifying those questions of critical importance which we will want to treat, and possibly reach tentative conclusions in regard to some of them or at least define the issues on which the conclusions depend.

Bob
Robert E. Allen
