SUBJECT: Request for Technical Review of MITRE
Bedford Contract

1. Per our discussion of 12 October 1984, request your review of the attached MITRE proposal in support of DIA and the IC Staff. DIA will be forwarding the funds for this effort as soon as FY 85 appropriations are identified. I have informed MITRE that any work performed by them since 1 October 1984 is at their own risk. I am requesting that you provide for pre-start contract expenses.

2. I request that the proposal be sent to the review board as soon as possible. Your assistance in this effort is appreciated.
