Dear Mr. McMahon:

Enclosed please find a copy of an article
that I have written on DC CISPES and the supporting
documentation for the article.

This article, which exposes a DC CISPES project
designed to provide direct military assistance to
the terrorist FMLN/FDR in El Salvador, will appear
in a soon to be published issue of The American
Sentinel.

I obtained this information and the supporting
documents by attending the 9 June meeting of CISPES.

If you would like more information on this
meeting please do not hesitate to contact me.

Sincerely,

Program Director

CANVASS TO SAVE LIVES IN EL SALVADOR

Door to Door Campaign to Raise Funds for Health and Agricultural Supplies

The Tequeque Project

San Francisco CISPES (Committee in Solidarity with the People of El Salvador) has pledged to Tequeque, El Salvador to help build their town and neighboring areas by raising funds for health and agricultural supplies.

On May 20th our goal is to raise funds towards the \$15,000 goal of the "Tequeque Project" and also to educate hundreds of people about the current situation in Central America.

You can show your support on May 20th by joining us in the first door-to-door canvass for the Tequeque project or by a contribution that will buy desperately needed seeds, fertilizers, farm equipment, and medicines:

- \$4 will buy one tube of fungicide to fight skin diseases
- \$10 will buy one bottle of diarrhea medicine.

Inside:

- El Salvador elections used to step up military aid
- Thousands tortured and killed in El Salvador during Duarte's last presidency
- 34,000 U.S. military troops were involved in military exercises in or near Central America.
- U.S. rejects FMLN peace proposal
- Refugees forced to relocate for military exercises

Harry Britt Urges Your Support

Dear Friend,

I am writing to urge your support of the fundraising efforts of San Francisco CISPES/NEST, which is providing medical and agricultural supplies to the people of Tequeque, El Salvador and their neighbors.

These communities face the daily threat of bombings and invasion, engineered and paid for by the United States government. Still, their people are working bravely to build democratically run local governments where the Salvadoran military has lost control.

The government of El Salvador is unwilling to provide medical care to all but the very few who support its policies and practices in a war against its own people. Food assistance for the many malnourished people in El Salvador is not provided by the government. In fact, the policies of the government perpetuate malnutrition and starvation.

The people of El Salvador are in urgent need of help. In the face of such incredible human need, the Reagan administration is spending hundreds of millions of dollars for more military aid to El Salvador. This money is directly supporting a military that former U.S. Am-

bassador Robert White has called "one of the most out-of-control, violent, bloodthirsty groups of men in the world."

In November of 1983, the people of San Francisco voted to oppose United States intervention in the lives of Salvadorans. Now we have the opportunity to provide desperately needed humanitarian aid to the people of El Salvador with our contributions for medical supplies and food to CISPES/NEST.

NEST's efforts have already saved the lives of hundreds of innocent women, men, and children by providing essential items like antibiotics, seeds, vitamins, and tools to those attempting to respond to the brutal violence in El Salvador.

I urge you to support SF CISPES/NEST in their request for contributions. By helping them in their efforts, you will be making an invaluable contribution to the improvement of human conditions in our world.

Sincerely,

Harry Britt
