P R E F A C E

This directory, designed to meet the need for a functional guide to officials of important East German political, economic and social organizations and groups, has been prepared from information received through July 1975. In some instances subdivisions known to exist under major components are listed whether or not the names of the incumbents are known. Spacing has been arranged to permit updating by the user. A comprehensive name and subject index has been included. In some cases names of organizations and titles of positions have been given in German as well as in English. The original German titles of positions given in English can usually be derived from the Glossary of Terms.
