

5 March 1986  
MLD-6001

MEMORANDUM FOR: Director, Foreign Broadcast Information Service  
FROM : Chief, London Bureau  
THROUGH : Chief, Operations Group  
SUBJECT : Monthly Report - London Bureau - February 1986

I. GENERAL

1. The second coldest February in Britain in this century left a litter of broken records at the bureau: the busiest February and also the busiest month in bureau history with a massive 108,740 daily word average; PMU's highest output yet, a daily 38,840 word average; the pressfax unit's biggest single cast ever, 130 pages printed on the 25th, the day all the papers featured Gorbachev's opening speech at the 27th CPSU Congress.
2. On the Internet front, bureau editorial, engineering, communications, and coverage aspects were coordinated by Chief Editor [redacted] and presented in concept and activation plans sent to Washington at the end of the month. No further word was heard from BTI, or BBC, as to any decision on the most effective way to relay video signals from Caversham to Madley and vice versa. Reporting BBC's own progress in that respect, Acting General Manager of the Monitoring Service Roland Challis informed FBIS at mid-month that the temporary microwave link for relay of video signals from Crowsley to Caversham had been installed on the Thames Water Authority's tower near Emmer Green.

STAT

II. OPERATIONS

A. Editorial/Monitorial

1. CPSU Congress:

Both the bureau and the BBC spent considerable time and thought in organizing the coverage and handling of the CPSU Congress. The bureau made detailed arrangements for documenting all wirefiled materials and maintaining processing logs, charts, and copy boards, and also established a three-slot editorial system with one editor dedicated to coordination of congress material. This meshed with the BBC's revolutionary concept of two duty supervisors per shift, with the second managing all congress-related staffing, coverage, and processing. The BBC also rearranged and reequipped its Soviet TV monitoring room - upstairs next to the chapel, where FBIS' two Medbuco evacuees first did Soviet video monitoring - to accommodate four monitors.

Bureau editors, PMU, and the BBC were all put to the test with the tidal flow of varying versions of the same information to process, coordinate, check, and compare. PMU's second shift, established well in advance of the congress to cover pressfax materials available early evenings and weekends, was rejigged to an early morning shift after the congress began. Even Soviet newsmen seemed to sag under the load of material, and the pressfax transmission, normally two casts with the first beginning around 1400 GMT, became a straight-through cast beginning five or six hours late, around 2000 GMT, ending around 0030, making long hours for weary pressfax techs.

Award for the least professional performance goes to TASS; on Day One of the congress it began carrying the text of Gorbachev's speech, but abandoned this in favor of a melange of flashes, snippets, and incomplete reports, only resuming transmission of the text about 1800 GMT that evening.

2. Palme Assassination:

Showing exceptional initiative, language facility, professionalism, and speed, Senior Editor [redacted] was on to the story of the assassination of Swedish Prime Minister Olof Palme immediately after the first AFP alert. Since the BBC had no Swedish capability on duty that night, [redacted] checked Stockholm broadcasting information in the most current available "World Radio and TV Handbook" and volunteered her services as a former PMU Swedish linguist to the Listening Room. The regular Stockholm International Service newscasts were prerecorded, but she intercepted and processed the first, unannounced, report on the assassination from Stockholm in Swedish at 0114 GMT. The bureau and the BBC both appreciated this fine performance.

*Good work!*

STAT

STAT

B. Lateral Service

At the request of the American Embassy in Moscow, all processed Soviet-source reportage, comment, and speeches from the CPSU Congress were filed to the embassy. ✓

C. Technical

The new IBM PC/XT, Bach-loaded, was located in the Punching Room on the 11th in time for the CPSU Congress, with Bach proving its worth during even the initial stages of the Congress. Given the volume of traffic being handled now, the Commo Section would not have been able to cope manually with the sorting of voluminous headers for each item. Also of considerable communications assistance was PMU's production of 20.7% of its file - 225,800 words - via the Wang/Telecutter, a record figure, turned out on only the four original Wang positions. ✓

III. ADMINISTRATION

Personnel

Editors [redacted] were promoted to GS-11 and GS-10 respectively, and Chief Editor [redacted] received his promotion to GS-15.

STAT  
STAT

IV. VISITS

February was only the second month since January 1983 without an official visitor, even an informal one. However, the bureau welcomed former Okinawa Bureau Russian monitor [redacted] who arrived with his wife in Henley on the 11th to assist PMU during the CPSU Congress before taking up his new post in Vienna Bureau in March. The affiliated units both had visitors: FBIS Deputy Director [redacted] and ESG Chief [redacted] were at Cologne Unit on the 4th, and at Islamabad Unit MOD's [redacted] stayed on for an extra week's cruising assignment while London Bureau engineer [redacted] paid his first familiarization trip to inspect the unit's equipment, departing on the 27th. Teleop [redacted] returned to London on the 14th from a four-week working TDY in Tel Aviv.
