June 29, 1977

Dear Mr. Baynes:

On behalf of the Fine Arts Commission I want to thank you for your support and cooperation in our project which produced the graphic design in the Headquarters tunnel area. Your foresight and know-how in helping set up the execution of the graphic design greatly facilitated completion of the project.

Now that it is up, I hope that you find it a good change from the previous austere atmosphere in the tunnel.

Sincerely yours,

Chairman
Fine Arts Commission
