

DRAFT #1
19 July 1982

MEMORANDUM FOR: The Honorable William French Smith
Attorney General

SUBJECT: Revision of Executive Order 10450

1. It is my understanding that by the end of 1982, the Justice Department will form a group to review and revise Executive Order 10450 based upon a recommendation made in the Report of the Interdepartmental Group on Unauthorized Disclosures of Classified Information (Willard Report). In the past, apparently because of a misconception that access to intelligence source and method information is solely controlled under Director of Central Intelligence Directive 1/14 (DCID 1/14), security personnel of Intelligence Community components were not directly involved in the rewriting of EO 10450.

2. I would appreciate it if you would ensure that the Intelligence Community has the opportunity to participate in the review and revision of EO 10450. My designee as focal point for the matter is the Chairman of the DCI Security Committee, [REDACTED] He may be reached on

[REDACTED]

Sincerely,

William J. Casey
