DIRECTOR OF CENTRAL INTELLIGENCE

Security Committee

SECOM - M-246

22 June 1981

MEMORANDUM FOR: Members, DCI Security Committee

FROM:

[Redacted]

Chairman

SUBJECT: DCID 1/14 Revision (U)

1. This memorandum is in lieu of minutes of the 10 and 17 June meetings of the Security Committee which were devoted primarily to consideration of the report of the Investigative Standards Working Group on revision of DCID 1/14 (U)

2. The Working Group's principal recommendation dealt with use of the polygraph as a condition precedent to granting SCI access. Security Committee discussions failed to develop a consensus for that recommendation. In the absence of such a consensus it was agreed that:

- a) Members would articulate their position and proposals in written form and submit these to the staff within 10 to 15 days.
- b) The staff would compile all positions and proposed alternative approaches.
- c) The Chairman would assemble a small group of members or their representatives in an effort to consolidate disparate positions and proposed alternatives in a paper for member consideration and approval.
- d) The final product would be sent to the DDCI and NFIB for consideration and decision. (C)

For coordination with PSI before presenting to the D/S. Note the Reference is classified and the response is not. We may wish to classify paragraph 1 to be consistent, although the basis for classification is not apparent. Also note the reference to representation on the group to be chosen by the Chairman. I assume we will want to be represented; paragraph 2 is intended to convey this wish.

*3-4: No objection.*  
1 to 3:

Would appreciate your immediate review as I would like to get this signed before the Director of Security's departure on his overseas trip.

This represents a negotiating start. We might want to strengthen (e.g., to retain provision for repolygraphing) or relax some provisions (e.g., make use of polygraph mandatory for only certain programs as selected by responsible SIO and concurred in by DCI). I recommend signature.
