4 March 1985

Weekly ReportDirectorate of Administration

- During the reporting period, the Office of Security coordinated a two-day visit to CIA by the Director, Deputy Director and senior management officers of the Federal Law Enforcement Training Center, Glynco, Georgia.
- On the morning of 21 February, a briefcase/package inspection was held at the Headquarters Building.

25X1

- On 19 February, OP representatives met with Thomas Latimer and Michael O'Neill of the HPSCI staff to discuss current happenings on the Hill regarding changes in the Federal retirement systems. The advice of the HPSCI staffers is to continue educating the staff on the Agency's needs so HPSCI can better assist and meet the Agency's retirement system needs. In addition, the DDA sent a letter to the Chairman, HPSCI, providing an overview of Agency personnel and requesting continued support from the Committee for the Agency's career system. The letter specifically cited our concern over any proposed modifications of existing retirement systems.

25X1

SECRET

25X1

- ALA and NIO/LA briefed HPSCI and participated in an SSCI briefing on developments in Central America.
- OSWR briefed Senators Glenn, Wilson and Levin of the Senate Armed Services Committee on Soviet stealth and Soviet responses to U.S. stealth.
- SOVA briefed OMB on Soviet defense costs and spending.

25X1

- Began our internal review of the Agency's major investment programs. The results of our review, along with recommendations for the 1987 program, will be considered by the EXCOM on 8 March.

25X1

Office of Legislative Liaison

- Senator Biden has introduced legislation which would substitute the Federal Government as the defendant when law enforcement or intelligence officers are sued personally. This bill would protect all employees of the CIA provided the alleged wrongdoing was committed within the scope of their duties. The proposal was referred to the Senate Judiciary Committee, where Senator Biden is ranking.
- Briefings this week:
 - 5 March - DDO, DO representatives, Comptroller and D/OLL will brief the SSCI on FY-86 covert action program with Ambassador Abramowitz, State.
 - DI representatives will brief Representative Michael DeWine on Nicaragua at HQS.
 - D/ALA/DDI, NIO/LA, and DO representatives will update the HPSCI on Nicaragua.
 - NIO/USSR, NIO/SP and C/ACIS/DDI, will brief the House of Representatives Geneva Observers Group on Soviet political and military trends.
- The Senate will recess 8-18 March; assume we'll hear the House will follow. This will affect budget hearing schedules.

DDA 85-0060/8
1 March 1985

MEMORANDUM FOR: Director of Central Intelligence

FROM: Harry E. Fitzwater
Deputy Director for Administration

SUBJECT: Weekly Report for Period Ending 1 March 1985

1. Progress reports on tasks assigned by the DCI/DDCI: 25X1

None.

2. Items/events of interest:

a. During the reporting period, the Office of Security (OS) coordinated a two-day visit to CIA by the Director, Deputy Director and senior management officers of the Federal Law Enforcement Training Center (FLETC), Glynco, Georgia. During the first day of the visit, the guests traveled to [] where they heard briefings on Agency operational training programs. On the second day of their visit, the group was given a tour of the Headquarters compound and was briefed on the operations of the Security Protective Service by OS representatives. Following the Headquarters briefings, the DDA hosted the visitors at a luncheon in the DCI dining room. By all accounts, the visit was a great success and significantly enhanced our training relationship with FLETC.

b. During the reporting period, OS began a project to compile data from all its unauthorized disclosure investigations dating from 1 October 1983 to the present to be provided to Chairman, DCI Security Committee (SECOM), for inclusion in a community computer data base being developed at SECOM's Unauthorized Disclosure Analysis Center. It is envisioned that this data base will be useful in future investigations of leaks, in coordinating Intelligence Community cooperation in leak investigations and in providing statistical data for legislative initiatives.

c. On 26 February, D/OS met with the newly appointed Chief of the Counterintelligence Staff/DO. The briefing was designed to familiarize him with the organization of OS, with particular emphasis on the points of greatest interaction between the two offices. Plans were also made to create a system of regular meetings to exchange information of mutual interest in the counterintelligence arena.

25X1

S E C R E T

S E C R E T

d. On the morning of 21 February, a briefcase/package inspection was held at the Headquarters Building.

e. On 26 February, a representative from the Office of Training and Education (OTE) briefed the Director of the Vice President's Task Force on Narcotics and the intelligence advisors for each of the National Narcotics Border Interdiction Service's (NNBIS) Regional Centers on OTE's analytical training program. The training was developed as a result of a needs survey of each NNBIS Regional Center and reflects the special orientation of each Center. NNBIS/Southeast in Miami will receive the first analytical training package in March 1985. 25X1

S E C R E T

[REDACTED]

k. An existing 6-inch water line fractured on 26 February causing a temporary loss of water to the Headquarters Building. There was no construction activity occurring in the vicinity of the fracture and the cause has not yet been determined. Since an adjacent existing water line froze and broke last month, this line could have experienced undetected stress, causing a later fracture. [REDACTED] 25X1

[REDACTED]

m. A new parking area is being constructed behind the Motor Pool. A contractor is in the process of patching two soft areas in the new lot with gravel. The new ground will then be rolled, and the lot will be ready for use on 1 March. Approximately [REDACTED] spaces will be made available for parking. Additionally, [REDACTED] angled parking spaces along the North Ring Road were added to the North Parking Lot during the week of 23 February. 25X1

n. With improved weather conditions, the repairs to the 7th-floor terrace and penthouse roof are progressing more rapidly. The installation of a gravel ballast on the front side of the 7D and 7E corridors was completed the weekend of 23 February.

o. On 19 February, Office of Personnel (OP) representatives met with Thomas Latimer and Michael O'Neill of the HPSCI staff to discuss current happenings on the Hill regarding changes in the Federal retirement systems. The advice of the HPSCI staffers is to continue educating the staff on the Agency's needs so HPSCI can better assist and meet the Agency's retirement system needs. 25X1

p. A letter signed by the DDA was forwarded to the Chairman, HPSCI, Lee Hamilton providing an overview of Agency personnel and requesting continued support from the Committee for the Agency's career system. In general, the letter contained what we think should be a general line of approach to the Hill and specifically cited our concern over any proposed modifications of existing retirement systems.

S E C R E T

S E C R E T

q. OP and OLL representatives attended the first hearing of the Subcommittee on Compensation and Employee Benefits of the House Post Office and Civil Service Committee on the Administration's FY 86 budget proposals to cut employee retirement and pay benefits. The key witness was the Director, OPM, who presented the Administration's rationale for the proposed benefits cuts. It was clearly evident that there was no support for any of the proposals by either Mary Rose Oakar, who chaired the hearing, or other members of the Committee. Representatives Barnes (Maryland) and Fazio (California), who are members of the House Budget Committee, also testified indicating strong opposition to any further reductions in Federal employee entitlements.

r. A Headquarter's Employee Bulletin and a worldwide station and base cable have been prepared notifying employees about the Administration's budget proposals, the supplemental retirement legislation, and developments on the Hill on these issues.

s. It is clearly far too early to know exactly what action Congress will take with regard to the various retirement proposals. Much activity will take place in this arena over the next several months. A briefing package is being assembled by OP for use with all the appropriate Hill committees.

t. Employment/OP is distributing a new recruiting aid called HIRE (Hiring Information and Requirements for Employment). This handbook, a handsome, three-ring binder bearing the OP emblem, is a consolidated Agencywide listing of minimum college-degree requirements grouped alphabetically by Directorate. Designed as a quick reference guide for employees involved in recruitment, the handbook represents a significant advance in our efforts to simplify and expedite analysis of the Agency's diverse criteria for employment. With this aid, a recruiter can swiftly assess an applicant's qualifications for specific jobs throughout the Agency.

25X1

u. The Student Program presently has an all-time high of student applicants in process for a variety of student positions in the Agency, and continued growth is anticipated. In the past six weeks, some students have been placed in process for high-tech positions within various components and a visit to the University of Akron will be made in early March to interview some 30-plus students presently seeking engineering or computer science degrees. The anticipated growth in the number of applicants and the recent authority to provide partial tuition assistance to the best of the Student Trainees during their senior year augur well for a projected higher retention rate.

25X1

v. A briefing was conducted with an OMB examiner on the need for an increase in the Agency's SIS ceiling . The examiner requested some additional details on specific positions which have been designated at the SIS level, and we are working to provide this information. We are hoping for a substantive response from OMB in the near term.

w. Chief, Personal Services Branch/OP attended the U.S. Savings Bond Kickoff Rally on 21 February. Guest speakers included Margaret M. Heckler, Secretary of Health and Human Services, and Jamie Farr, star of the

25X1

S E C R E T

"M.A.S.H." and "After M.A.S.H." television series. The Agency's Savings Bond Kickoff is scheduled for 28 March, and the Campaign will run from 1 - 26 April. Although there will not be a specific dollar goal involved in this campaign, we will strive for [] percent on-duty-strength participation.

25X1

x. The Directorate Upward Mobility Career Day Seminars were held on 19 - 21 February, and nearly [] employees filed applications for various positions throughout the Agency.

25X1

3. Significant activities anticipated during the coming week:

None.
