Weekly ReportDirectorate of Administration

-- The Director of Personnel (D/OP) met with senior OMB officials to discuss the Agency's retirement proposal forwarded to OMB earlier in the week. The meeting provided an excellent opportunity to further elaborate on the Agency's needs in a retirement program, various benefits included in the legislation, the differences and similarities between the Agency proposal and Senator Stevens' plan, and the Agency's plan to resolve security concerns. While the OMB representatives had several questions about the retirement proposal, none was unanticipated. Agreement was reached that OMB needed more time to review the legislation and that the Agency would provide some additional information in such areas as funding, cost of benefits, etc. It was also agreed that we must continue to move forward but not ahead of Senator Stevens' legislative effort. Additional meetings will be scheduled with OMB on this effort.

k. On 13 August, members of the Office of Training and Education (OTE) Linguistics Committee met with representatives from the DO as part of an ongoing DO/OTE dialogue. OTE agreed to formally report to the DO cases of DO students with unusually low language aptitudes who demonstrate no ability to surpass the "1" speaking proficiency level, students with detrimentally irregular attendance, and full-time DO students who enroll in less than the

prescribed length of training or who withdraw substantially prior to the end of a full-time course. With regard to testing, OTE agreed the DO testers be required to take a full proficiency test before enrolling in OTE's Tester Training Workshop and that, when possible, trained DO testers be called to administer proficiency tests monthly in order to maintain their testing skills.

1. The Headquarters Language Training Program (HELP) conducted its registration/orientation on 15 August. At the end of the day, students were registered in the following languages:

25X1

25X1

Registration will remain open until classes begin in mid-September which will undoubtedly increase the number of applicants for the Headquarters program.

n. Headquarters Operations, Maintenance and Engineering Division (HOME/OL) reports that installation of carpet and acoustic ceiling materials has effectively reduced the South cafeteria's noise level in half. Recent measurements taken during lunchtime indicated the ambient noise levels at the center span area to be 66 decibels, which equals most busy restaurants.
