MEMORANDUM FOR: Distribution

THROUGH: Chief, Headquarters Engineering Division, ESG

FROM: Laird Steinberg
System Engineering Support, GE

SUBJECT: Operational ERB Meeting Report

1. The Operational Engineering Review Board was held on 15 October 1987 at 1330. See Attachment A for a list of attendees. See Attachment B for the Agenda.
2. B. Hunter opened the meeting and four critical DRs were discussed. See Attachment C for a description of these DRs.
3. The O-ERB reviewed all the new non-critical DRs. See Attachment C for a description of those new DRs discussed. Due to time constraints, only the Priority A DRs in process were reviewed. See Attachment D for the current status of all DRs.
4. There were no new MRs. Those in process MRs scheduled for update were reviewed for comment. See Attachment E for the current status of all MRs.
5. There were no new RFCs. Those RFCs in process and scheduled for update were discussed. See Attachment F for the current status of all RFCs.
6. Time did not permit the review of the Action Items. See Attachment G for the list of Action Items remaining open.
7. The next Operational ERB is scheduled for Thursday, 22 October at 1330.

E. Brewer, LEC	T/I	C	10-29-1987	

DESCRIPTION

When you change a ribbon or paper (or when printer goes bad), there will be a gap between what is on printer during time of change of ribbon or paper change. We can print what is missed on another printer. But for short periods a memory storage is needed

ERB COMMENTS

On ATEX side, s/w should detect the printer off-line, s/w not maintaing.
